Tasks for a durable cooperation

Cooperation issues and relevant territorial level and/or instrument:

- Spaces and places of the new economy (ITI, city and regional networks)
- An integrated system of metropolitan mobility (regional networks)
- Green infrastructure (CLLD)
- Towards sustainability (ISUD)
- Quality of urban spaces and regeneration (city networks)

Recommendations

- **Metropolitan city:**
 - Coordinated planning of funds accession and use
- **Regional level:**
 - Technical assistance ex-ante, in interim, and ex-post
- **Macro-regional level:**
 - Enhance or promote coherence among different national, regional and local strategies
- **City networks:**
 - Cross-fertilization, test-bedding and adoption of experimental practices
- **Transcalar:**
 - Efficient governance systems, effective institutional capacity building
