

GOOD REASONS TO COME TO US

You are worth it

Sexual work is a demanding and challenging job.
Care for your physical and mental health.

Your health is important for you

All sexual acts may lead to a transmission of diseases. Condoms are the best protection against HIV/AIDS.
However there are also other sexually transmitted infections. You do not always see and feel them, yet they are harmful to health.
That is why it makes sense, to regularly have yourself examined as most diseases are easy to treat.

Your job is not always easy

In your job you may be subject to prejudice, exploitation, violence or coercion. Sometimes help is needed or a conversation with a person who does not judge you or demand explanations.
