Invitation to the “Start of School Examination”

Dear Parents,

the time has almost arrived – your child will start school.

Our school doctors from the Paediatric and Adolescent Medical Services will gladly assist and advise you in preparing for this new phase in life.

The purpose of the Start of School Examination is to identify particular health circumstances that may be of significance to school attendance and to recommend treatments or remedial measures where necessary. To do this, we perform a physical examination of your child (including a vision and hearing test) and obtain an assessment of its state of development as a benchmark. We also discuss your child’s medical history and advise you on vaccinations.

The “Start of School Examination” is conducted on all children starting school in a particular year and therefore provides information about their state of health. Pseudonymised data is collected and transferred to the State Statistic Office of the Free State of Saxony in order to compile statistics. Your rights to information according to Art. 13 and 14 of the EU General Data Protection Regulation are accessed at: www.leipzig.de/vorsorge-gesundheitsamt

The “Start of School Examination” is a compulsory examination for all children according to the relevant laws. A legal guardian must be present.
Naturally, all findings, as well as your data, are subject to medical secrecy.

We are inviting you and your child to attend the Start of School Examination:

<table>
<thead>
<tr>
<th>Date</th>
<th>Time</th>
<th>Place</th>
</tr>
</thead>
</table>

Kindly take note that this appointment is binding.

Appointments may be changed in urgent cases; please call us by telephone to arrange an alternative in these instances.

You should expect the examination of your child to last at least 60 to 90 minutes.

Please bring the following documents to the examination appointment:

- **Vaccination certificates** (stating the vaccination status required by law*)
- **Examinations booklet** (yellow booklet)
- A signed copy of the preparation form (see overleaf)
- any relevant **medical findings/documents**, disabled person’s pass

With kind regards

The School Doctor
appointed by the Office of Public Health in the City of Leipzig
