Corona vaccination

The vaccine helps!

Corona is dangerous for some people! It makes some people seriously ill. Some people die from it.
The vaccine protects you! You will not get seriously ill!
The vaccine protects people who cannot be vaccinated. For example, children, pregnant women or people with serious diseases.

If a lot of people are vaccinated, we can avoid the closure of schools, shops and cafés.

What are the possible side effects?

- pain at the injection site
- feeling generally under the weather
- headache
- fever

If you feel very unwell, you should go to the doctor or call an ambulance.

What are the possible side effects?

</tbody>
</table>

You will discuss with the doctor which vaccine is best for you.

Where can you get vaccinated?

Your family doctor can administer the vaccine. Please make an appointment.

You can get vaccinated at a mobile vaccination centre. You do not need an appointment. You can find a list of centres at www.leipzig.de/corona-impfung

What do you need to get vaccinated?

- vaccination card
- health insurance card
- ID card

What do you have to pay attention to afterwards?

You should rest after the vaccination. You should not exercise.

Continue to observe the hygiene rules!

Are the vaccines safe?

The vaccines have been tested very carefully. The tests were carefully analysed.

More than 30 million people around the world have now been vaccinated. Serious side effects are very rare. Their benefit outweighs the risk!
